Chemline 6060
Polyurea Lining for Secondary Containment Applications

Description
Chemline 6060 is a 1:1, fast-set, spray applied two-component polyurea coating. It is 100% solids and contains zero VOCs. When cured, it is highlighted by:

✓ Excellent resistance against chemicals used in the Oil and Gas Industry
✓ Extremely flexible and high elongation to conform to the substrate during movement
✓ Specifically designed to wet out geotextiles to create a tough, durable liner
✓ Fast setting to minimize down times of application areas

Application Recommendations
Chemline 6060 adheres extremely well to geotextile fabric. Typical applications include wastewater containment, chemical containment and spill control, fuel loading and unloading stations and landfills.

Chemline 6060 should be applied through a two component, heated, high pressure proportioning unit (1A:1B) capable of dynamic spray pressures of 2000-2400 psi.

For further detail consult the Chemline 6060 Material Standard and seek a Chemline Technical Representative for application training.

Packaging, Storage & Shelf Life
Chemline 6060 is available in 55 gallon drums and 275 gallon totes. It should be stored in sealed containers between 60ºF and 90ºF. Shelf life is 12 months under normal conditions.

Safety
Chemline 6060 is for industrial use only. Avoid contact with eyes and skin. Do not inhale or ingest. When spraying, wear a respirator or fresh air hood. Spraying indoors requires forced ventilation. Be sure to read MSDS in its entirety prior to use.
